Head for the Alabama Hills
March 22-26, 2018
Hosts: Barb Howard-Jones & Jeanette Weber
and Tim & Nancy Murphy

March is just around the corner and we're heading to the Alabama Hills near Lone Pine. This BLM land is nestled between Mount Whitney and the quaint town of Lone Pine just off Highway 395. This will be a dispersed camping/boondocking experience at its finest.

Please note there are no hook-ups, or running water, no picnic tables, fire pits, toilets or showers! Please arrive with empty black/gray and full water and propane!

Directions: Take Highway 395 into the town of Lone Pine. Turn west at the only stop light in town onto Whitney Portal Road toward Mount Whitney. About 3 miles up turn right onto Movie Road. This is where the road changes from paved to a dirt road. Don't bother washing your trailer before you come. Directional signs will be posted to help you find available campsites.

What to Bring: Airstream with empty gray & black tanks and full propane & water tanks; food for four days; hiking gear, camera, sunscreen, portable table, fire pit, pop-up canopy (if you have one); and a generator, if needed.
